

Glenn Billington

Golf Academy Hacienda Del Alamo

Murcia, Spain

Our Professional staff: -

Tommy Horton MBE is our Ambassador and associated short game Coach. Tommy is a fantastic exponent of the short game and already coaches numerous players and National Teams. He has agreed to be available for coaching and should you need any information then please ask.

Glenn Billington is a putting coach who believes in a truly professional approach to putting. Until recently Glenn was a level two Swash Accredited putting coach but decided that he had developed so much that his own styles were becoming more evident. Glenn coaches many European tour players – ladies and men’s tour and many other professionals and amateurs. Glenn’s studio has to be one of the finest in Europe and is fitted with video, SAM lab, top grade flooring and mirrors galore to make sure that all our learning senses are catered for. Again, please ask for details.

Tommy and Glenn can work together with the National/County team coaches and provide that extra piece to the jigsaw.

We have several other Teaching Professionals who are at hand – so if you require their help and assistance then please ask.

Pricing for golfing breaks including coaching: -

FOUR DAY IMPROVEMENT SESSIONS

Costs – 699 euros (Murcia Airport) 719 euros (Alicante Airport)

(4 person sharing 2 bed apartment/villa and 6 persons sharing a 3 bed apartment/villa)

Groups from 4 players – no maximum

PER PERSON: -

- 4 nights in accommodation – 4 (2 bedroom) or 6 (3 bedroom) sharing twin room
- Drinks reception and preparation for the week (depending on time of arrival)
- Transfers – Alicante airport add 20 euros
- All coaching, video and SAM data
- All range balls
- Three meals a day and drink
 - Breakfast – buffet English/continental style with drink
 - Lunch – sandwich/fruit and drink
 - Three course evening meal with drink

The sessions will be catered for the individual and they can develop without too much technical talk. We will make sure that all of students have an understanding and that we follow this up with all information they require.

The course for four day improvement was structured to help a golfer in all areas of the game. This will give the student a better understanding of the game, a better understanding of their long game, short game and of course putting. Add to that the effects your brain has then an input on the 'mental' game will help you improve to extraordinary levels.

The sessions start with putting and the short area of the game. This is so that we can develop a better understanding of the individual game before we move on to hitting longer clubs.

All parts of the game will be on video for our pupils. We will have an end of course discussion and a report for you to take away with the individual drills and training that will help you to improve.

Four day improvement session will consist of fifteen hours training: -

- **Putting** – Three hour session. Two hours in the studio and one on the putting green
- **Short game work** - chipping, pitching and bunker – Four hour session
- **Long game** - first class range – Three hours
- **Mental approach** to golf and course management on our 6 hole academy course – Five hour session

Day one - Putting: -

Almost 50 per cent of the game is putting - Group session I will demonstrate how we can improve our putting and learn more how to aim, hold the putter in a natural manner, set up square to the target and to make the putting stroke be more consistent for length and timing.

- During the session each player will be videoed,
- Use the SAM put lab – This is a fantastic piece of equipment which helps identify how good a putter a person is.
- Have direct input from me in how to improve and how they should set up and hold the putter in a more effective way.
- At the end of the session there will be a putting competition to decide who is the most improved!
- Followed by game on academy course
- Each person will have their video and SAM lab data sent to them via email and specific input as to how they can improve long term

Day two - Short game session: -

Being able to chip and pitch the ball close to the hole can save us so many shots and help lower our scores! This area of coaching will help all levels of player and give a lot of confidence to an individual. We need to know which club is the right one to use, which club has the best response and why the ball reacts in a certain way.

The content of the course is as follows: -

- **Chipping** – This area of the game can be such a great shot to add to our game! Get this right and you will not need to worry if you miss the green. You will learn how to hold the club correctly and which club is more effective.
- **Pitching** – The difference between chipping and pitching is about distance and how to control the club flight. Chipping is normally 75 per cent along the ground while pitching is 75 per cent in the air. With pitching we want to stop the ball quicker and therefore aim is so important!
- **Bunker Play** – Do you dread this shot? Does the ball come out eventually? When it does it doesn't stop where you want it to? We will train you how to be confident and make sure you use the right club for the job.
- Followed by game on academy course

Day three - Long Game Session: -

By now we will have an understanding of your game and the direction you need to make our team work get you to improve.

- We will make sure that you understand the correct hold of the club,
- That you understand the fundamentals of the swing and
- What best suits you as the individual.
- Followed by game on 18 Championship course

From the driver to the wedges, we will make sure that you understand the flight of the ball and actual distances you can achieve.

Day four - Mental Game and Course Management: -

We should all know our limitations. When we do that then we can start to improve and set achievable goals. Improve steadily and slowly, let us understand what we can do.

- During this session we will develop a pre shot routine.
- We will know where to aim and
- What to look for instead of looking at a hazard you will see where you want to be!
- Know how to keep yourself in play – going for the 'big' shot every time can be a type of play that puts you in trouble. Let us see how alternative thinking helps?
- You will understand the golfer you want to be and how to get there.
- Followed by game on 18 Championship course

We will play a game on the 6 hole academy course and see how your course management and new routine works. Let us set our goals and feel more confident.

As you can see this is a four stage program and will be structured to make sure you all enjoy it and learn the most from it. If this is acceptable to you i will price it and confirm the structure.

SEVEN DAY IMPROVEMENT SESSIONS

Costs – 899 euros (Murcia Airport) 919 euros (Alicante Airport)

(4 person sharing 2 bed apartment/villa and 6 persons sharing a 3 bed apartment/villa)

Groups from 4 players – no maximum
